Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Monday 29 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Turning brighter and warmer from the south.

Today:
A cloudy start with outbreaks of patchy rain in the north, particularly over high ground. Brighter spells developing from the south through the afternoon, however staying largely cloudy in the north. A windy day with coastal gales. Maximum temperature 16 deg C (61 deg F).

Tonight:
During the evening and overnight clear spells develop widely in the south with some low cloud lingering in the north. Winds gradually easing. Minimum temperature 3 deg C (37 deg F).

Tuesday:
A largely dry start with sunny spells in the south. Cloud clearing in the north through the morning with plenty of sunny spells by afternoon. Feeling warm with light winds. Maximum temperature 20 deg C (68 deg F).

Outlook for Wednesday to Friday:
Sunny spells on Wednesday with increasing cloud and patchy rain later. Colder and dry with variable amounts of cloud on Thursday and Friday, with the risk of an overnight frost.
